

Eccentric Levers - with Threaded Bush

quick clamping - adjustable

Standard
Manual Clam-

STANDARD MANUAL CLAMPING

18580.2

Material

Handle: zinc die-cast, black plastic coated.
Threaded part, inner parts, adjusting nut: stainless steel (AISI 303, 1.4305).
Bearing washer: reinforced glass, thermo-

plastic.

Technical Notes

Enables quick and easy clamping of work-pieces.

Adjustable type enables repositioning of lever to avoid obstruction of the work-piece.

Withstands temperatures of up to 80° C.
