CMM Fixturing

modular approach, flexible system

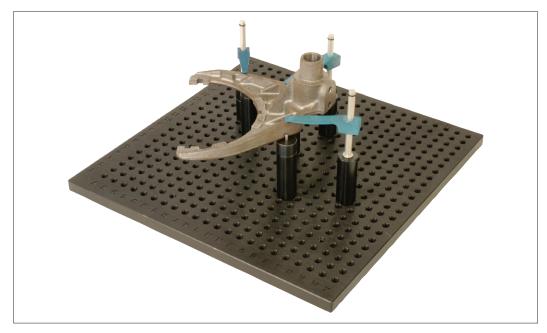

Wixroyd's CMM fixturing system is designed for easy assembly and high repeatability, eliminating the need to build dedicated fixtures. The system offers a highly accurate and flexible solution of holding parts while probing on CMMs.

Flexible

GAUGING & INSPECTION

A variety of component parts as well as complete kits are available; to enable setup of fixtures in minutes.

- Aluminium base plates hole based system with alpha-numeric labelling for easy set-up and recording of fixture positions.
- Fixture towers ideal for fixturing of large vertical components.
- Soft-touch clamps non-marking clamps providing the ideal force for holding parts during CMM probing.
- Locating components rest pads, vee pads for cylindrical parts, pin rests etc.
