

CMM Fixturing Stops with mounting plate

Gauging & Inspection

19324

GAUGING & INSPECTION

Material

Steel.

allows for quick part changeover. Sliding mounting base for easy adjustment and positioning.

Important Notes

Provides horizontal clamping. T-handle

Order No.	Stroke s_1	h_1	h_2	h_3	l_1	l_2	w_1	w_2	Weight g

Wixroyd's CMM fixturing system is designed for easy assembly and high repeatability, eliminating the need to build dedicated fixtures. The system offers a highly accurate and flexible solution of holding parts while probing on CMMs.

Flexible

A variety of component parts as well as complete kits are available; to enable setup of fixtures in minutes.

- Aluminium base plates – hole based system with alpha-numeric labelling for easy set-up and recording of fixture positions.
- Fixture towers – ideal for fixturing of large vertical components.
- Soft-touch clamps – non-marking clamps providing the ideal force for holding parts during CMM probing.
- Locating components – rest pads, vee pads for cylindrical parts, pin rests etc.
