

19337

Material

AL NICO magnet in brass sleeve.

Important Notes

For fixturing steel or iron parts. Magnetic force holds parts during probing.

CMM Fixturing

modular approach, flexible system

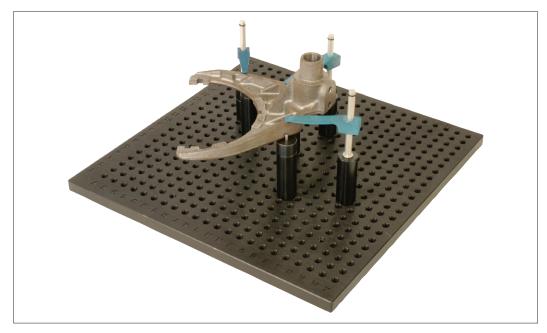

Wixroyd's CMM fixturing system is designed for easy assembly and high repeatability, eliminating the need to build dedicated fixtures. The system offers a highly accurate and flexible solution of holding parts while probing on CMMs.

Flexible

GAUGING & INSPECTION

A variety of component parts as well as complete kits are available; to enable setup of fixtures in minutes.

- Aluminium base plates hole based system with alpha-numeric labelling for easy set-up and recording of fixture positions.
- Fixture towers ideal for fixturing of large vertical components.
- Soft-touch clamps non-marking clamps providing the ideal force for holding parts during CMM probing.
- Locating components rest pads, vee pads for cylindrical parts, pin rests etc.
