

# One-Touch Fastener - Ball Locking

push button lock - straight - stainless steel

One Touch  
Fasteners

33915

ONE TOUCH FASTENERS

## Material

Body & button: stainless steel  
Ball & coil ring: stainless steel.  
Snap Ring: stainless steel.

## Technical Notes

One-touch fasteners are the ideal solution for applications requiring rapid and recurring change over of tooling or set ups. Use in applications as diverse as bottling processes, machine covers, changing of

cogs and drive belts. One-touch fasteners provide a quick, simple and secure change over solution - no time wasted in unfastening screws or other permanent fixings, and no opportunity for lost fixings in your machinery.  
Temperature resistant to 180°C.

## Important Notes

Suitable for panels/enclosures of 6 to 16mm thickness.

For locating bushes see part no. 33920.

Actuation:  
push button: unlock (to pass pin through panels)  
release button: lock to securely fasten.

**Note: One-touch fastener 33915 is not suitable for installation unattached from panel.**

# One-Touch Fastener - Ball Locking

technical information

33910 - 33920

Positioning Elements

## Operating Instructions

depress button,  
align pin and insert

when the button is released,  
clamping is complete

depress button to release,  
and pull out

## Operating Principle

activation button  
press = unlock  
release = lock

during clamping the tapered pin pushes out the ball bearing, into the recessed  
holes of the receiver, securely clamping the two surfaces together
